

Propét[®]

A5500

Medicare Coded Collection

Dependable walking shoes for people with special foot care needs.

Medicare Accepted

For the many daily challenges that life presents to your customers, you can depend on the quality, comfort and fit of Propét® Walking Shoes.

Propét® proudly produces sturdy walking shoes at value prices especially for those with special footcare needs. We understand that your customers face special circumstances that require a more sensitive type of footwear. Propét® manufactures a wide selection of shoes featuring extra-volume fitting, internal heel counters for added support, soft lining for comfort, and removable orthotics allowing for maximum customization. We understand that the desire for a comfortable, Medicare-friendly style of footwear is needed in today's ever-changing health environment. In response to this, Propét® has assembled a collection of instock footwear that falls under the A5500 Medicare Code.

A5500 Medicare Coded guidelines include:

- 1) Depth-inlay for multi-density inserts
- 2) Ability to accept custom orthotics
- 3) Adjustable fastenings, ie. tie or hook and loop closure.
- 4) Closed-back design
- 5) Minimum three widths

So try us on for size. Contact your Regional Sales Manager today about the A5500 Medicare Coded footwear from Propét® Walking Shoes.

Propét®. The walking shoe company with the 1,000 mile guarantee.

When it comes to patients with special foot care needs, every situation requires the right prescription. Diabetes around the world is growing by alarming rates. The special foot care needs of diabetics are coming front and center. According to the American Diabetes Association, there are 20.8 million people (7% of the population) in the United States with diabetes. While an estimated 14.6 million have been diagnosed with diabetes, unfortunately, 6.2 million people (or nearly one-third) are unaware that they have the disease. There are also 54 million people in U.S. being considered as pre-diabetes, and in 2005 alone 1.5 million new cases of diabetes were diagnosed in people aged 20 years or older. Breaking down by age groups, between 20 and 60 years old, 20.6 million people, or 9.6% of all people in this age group has diabetes or pre-diabetes. For 60 years of older group, 10.3 million, or 20.9% of all people in this age group, have diabetes. The numbers are staggering.

One of the side effects of diabetes is lesions and some may form on the feet. Ill-fitting footwear can increase the chances of lesions forming. This is where great care is needed to ensure that the footwear fits the foot properly and offers as much customization opportunities as possible. With poor fitting footwear, the lesions can become infected and amputations may be necessary. The importance of proper fitting footwear could make a difference in a person's life. Provide your customers with the best in special footcare needs by giving them the assurance that their Propét® walking shoes will be there every step of the way.
